# Global Peace Science Agenda 2017 for the G20, UN, UNESCO and EU TO: Leaders of the UN member states

GHA 56th project. Approved on June 5, 2017

Publication. In English: [http://peacefromharmony.org/?cat=en\\_c&key=757](http://peacefromharmony.org/?cat=en_c&key=757)

+8 languages: Spanish, French, Portuguese, Arabic, Greek, Russian, Esperanto, Urdu

Appeals to the G20-2017 leaders are here: [http://peacefromharmony.org/?cat=en\\_c&key=762](http://peacefromharmony.org/?cat=en_c&key=762)

*"The internal harmony of the world is the only true objective reality."*

**Poincare**

*"Harmony should become the key value of global humankind, the main subject of science and public consciousness in the 21st century in order to survive and prosper in planetary peace".*

**GHA**

Dear Ladies and Gentlemen!

The UNESCO Constitution says: *"That since wars begin in the minds of men, it is in the minds of men that the defences of peace must be constructed; ... that the peace must therefore be founded, if it is not to fail, upon the intellectual and moral solidarity of mankind."* Unfortunately, the scientific theoretical defences of global peace were not constructed or founded in the minds of men until now, while military science has been developing rapidly for more than two centuries. Therefore, in reality, the opposite happens: defense of war instead of peace defence. The nations plan the architecture of various wars and aggressions; constantly increase military budgets and armaments, limiting their discussions only to issues of war and security from it, practically removing the questions of peace for the brackets of their meetings and summits. The best way *"to construct peace defences"* *"upon the intellectual and moral solidarity"* is global peace science acceptable and compulsory for all nations.

For this purpose, we are pleased to propose for your consideration the unprecedented peace initiative of the development of *Global Peace Science* (GPS), the first version of which was created during 11 years by the GHA 174 coauthors from 34 countries, including the President of India Dr. Abdul Kalam, three Nobel Peace Laureates and dozens of outstanding scientists and peacemakers: <http://peacefromharmony.org/docs/global-peace-science-2016.pdf>

We realise that the initial version of GPS is far from perfection and requires its further improvement at the state level of each country and within the framework of the UN, designed to provide global peace with the most effective means, the first of which is PEACE SCIENCE. Only it is able to *construct the defences of peace* by the best way.

In this connection, we invite every leader of the UN member states to show your social responsibility for peace by your unique initiation of the *Global Peace Agenda* at the UN that will raise your peacemaking prestige highly. We invite you to include in the Agenda and put to the vote of the UN General Assembly in autumn 2017 the following 12 initiative proposals of this Agenda, or some of them at your discretion:

1. The necessity to develop *Global Peace Science* (GPS) based on the idea of world harmony, which includes all human values and is intuitively shared by all civilizations in the history.
2. Holding the International Scientific Contest for the best version of GPS under the auspices of the United Nations.
3. Establishment of a Special Committee in the UN: *"Global Peace Science against International Terrorism"* as a tool for reconciliation of religions, antiterrorist immunity and overcoming the fundamentalist ideology of terrorism.
4. Establishment of the *"Global Peace Academy"* under the UN for research and education in the field of global peace and its branches in the world's largest and nuclear-armed nations.
5. Establishment of the *"UN Week of Global Peace Science from Harmony"* on January 24 to 31 or January 17 to 24 (following the example of the *"UN Interfaith Harmony Week"* on February 1 to 7, initiated by the King of Jordan at the UN General Assembly Session in 2010).
6. The reissue of the book *"Global Peace Science"*, possibly by 2018 under the auspices of the UN and with the participation of world political leaders, primarily from nuclear powers.

7. Conduct international statistical research into dynamics of a deep societal structure of spherical classes within the population in each country and worldwide since 1950 to 2015.
8. Establish a permanent UN Project "*Monitoring of War and Peace in the World Public Consciousness and the Media*".
9. Establishing a "*Peace Department*" in the governmental structures of the nuclear countries.
10. Work out the UN Model of global governance by general and complete disarmament, with the priority of nuclear disarmament within 10 years based on the GPS.
11. Explore the Global Peace Thermodynamics as the UN Model of global governance for environmental, climate and other world challenges and risks of the 21st century.
12. Consider developing "*Global Peace Earth Constitution*" based on the GPS.

All proposed initiatives are presented in a first approximation in the relevant articles in the GPS book or in the subsequent ones developing them.

The world leaders should be encouraged to plan similar initiatives at all summits of G20, G7 as well as in UNESCO and the EU, the European Parliament and its structures. These initiatives will offset the dangerous deficit of peace and harmony in all intern. institutions.

Similar peacemaking initiatives should prompt a highest level and example of social responsibility of the world leaders and international institutions for the fate of global peace and preservation of life on the Earth from global military and man-made threats.

The Global Harmony Association and its associated international peacemaking organizations will be happy to provide each of you with considerable intellectual potential that we have accumulated over many years of developing the original version of GPS.

Yours sincerely, Global Harmony Association (GHA) leaders:

**Dr. Subhash Chandra**, GHA President, India [schandra101@gmail.com](mailto:schandra101@gmail.com),

**Mr. Ramesh Kumar**, GHA Executive Director, India [ngocosro@gmail.com](mailto:ngocosro@gmail.com),

**Dr. Leo Semashko**, GHA Founder and Honorary President, Russia [leo.semashko@gmail.com](mailto:leo.semashko@gmail.com),

Mr. Light Wilson Aganwa, South Sudan

Dr. Michael Ellis, Australia

And others, the list is open

G20-2017. Global Peace Agenda Appeal for Russia and USA jointly

**Dear Mr. Vladimir Putin**, President of Russian Federation

**Cc: Mr. Donald Trump**, President of the United States

We would like to ask every from you to initiate jointly at the G20 summit, or at the UN Session, the "**Global Peace Science Agenda**", which was developed, made public and proposed in eight languages to the leaders of 193 UN member states by the peacemaking organizations and Nobel Prize Laureates. It can be found at: [http://peacefromharmony.org/?cat=en\\_c&key=757](http://peacefromharmony.org/?cat=en_c&key=757).

Your initiative with global peace science would make your country a leader in the 21st Century of a scientific peacemaking revolution, or better still pro-evolution, which will "**shift the arms race into a peace race**" (M. King) through the peace science and will give your country a priority in the unique digital technologies that ensure sustainable economic growth.

Do you want this? Would you like to do this? Would you, as one of the world leaders, willing to take seriously your social and moral responsibility for global peace, and thus for the destiny of humankind and our planet?

Your initiative will be the start of a new international discourse/dialogue on a scientific as well as humanistic vision of global peace. It will help to overcome the obvious deficit in global peace research in contrast to the global military research, which appears to be suicidal for humankind and our planet, in the face of the possibility of a second cold war bordering with a thermonuclear war.

Your initiative would indeed be a historic event to rescue humanity and the planet from the deadly militaristic threat. Your initiative would remain in the memory of a grateful humanity forever.

It would be a great, unprecedented initiative of peace through science and humanism. It would certainly be necessary for the people of your country and all humanity. We think that this proposal is acceptable to you.

Since you are a peacemaker, not militarist, therefore you shall recognize that this peace initiative is necessary, particularly in the present global crisis. Or do you think it is untimely and ready to give away the palm of its primacy to another country?

If you want to learn more about *Global Peace Science* (GPS) and its Agenda for dialogue, please write to these three addresses:

**Prof. John Avery**, Nobel Peace Laureate: [avery.john.s@gmail.com](mailto:avery.john.s@gmail.com)

**Mrs. Mairead Maguire**, Nobel Peace Laureate: [mairread@peacepeople.com](mailto:mairread@peacepeople.com)

**Dr. Leo Semashko**, GHA founder and the GPS first version editor by 174 co-authors from 34 countries: [leo.semashko@gmail.com](mailto:leo.semashko@gmail.com)

You could read the GPS first version book here:

<http://peacefromharmony.org/docs/global-peace-science-2016.pdf>

Please, make this great peace deal jointly for the benefit of our great peoples and survival of humankind and the planet! **Global peace is the right to life of everyone**, including you. Do not kill it with your disagreements - it is immeasurably higher than they.

Yours sincerely,

**Dr. Leo Semashko** and the GHA peacemakers and world citizens, on July 4, 2017

The GHA invites responsible peacemakers and world citizens of all countries to send similar appeals to the global peace agenda to as many of the leaders of the UN member states as possible. Only in this way, the world civil society can induce them to a new peace dialogue in order to "*shift the arms race into a peace race*" (M. King) **that ensures the right to life for everyone and saves humankind and the planet.**

More than 117 different peace appeals/messages to the G20-2017 leaders and other countries from the GHA 18 senders were published here: [http://peacefromharmony.org/?cat=en\\_c&key=762](http://peacefromharmony.org/?cat=en_c&key=762)
